

Win/Loss counters properly update

in list [Test Case](#)

Notifications

 Watch

Description [Edit](#)

This test will ensure the win/loss counters are properly updating after each game.

Steps :

- Open botsData.js and uncomment the last two test bots (Friendly and Bull).
- Comment out 2 other bots (For additional selectivity, comment out exactly 5 other bots instead (no more) and in the index.js file follow the instructions on line 121).
- Navigate to localhost:3000 after running 'npm start'.
- Click the 'Draw' button.
- For a win, choose Bull and another normal bot (not Friendly).
- For a loss, choose Friendly and another normal bot (not Bull).

Test Post-conditions :

- A win should increment the wins counter & the loss counter shouldn't change.
- A loss should increment the loss counter & the wins counter shouldn't change.

Other Details:

- execution environment: OS: MacOS, ventura 13.2
Browser:Google Chrome
